

Executive Ministry Brief — High-Level Policy Dossier

ID: REP-2026-B56D | Classification: CABINET STRATEGIC REVIEW | Date: 04 September 2026

NATIONAL OUTPUT	THERMAL DISPATCH	TARGET FULFILLMENT	OFFTAKE EFFICIENCY
131,608.9 MT	126,491.2 MT	96.7%	96.1%
Active Extraction Scale	Power Utility Supply	Planned Benchmark	Pithead Evacuation

1. Sovereign Directive & Macro Overview

National coal output sustained strong operational capacity with 131,608.90 MT extracted across 18 primary mining installations. Fulfillment against targeted benchmark achieved 96.72%, sustaining power utility stockpiles at optimal levels. Pithead dispatch efficiency remained robust, substantially mitigating coastal coal import requirements.

2. Strategic Colliery Contribution Leaderboard (Top Producers)

Rank	Colliery / Mining Project	State	Company	Type	Prod (MT)	Disp (MT)	Share
1	Gevra Expansion Mine	Chhattisgarh	SECL	Open	15,265.5	14,890.2	11.41%
2	Kusmunda Colliery	Chhattisgarh	SECL	Open	13,842.1	13,210.5	10.35%
3	Dipka Project	Chhattisgarh	SECL	Open	12,190.5	11,950.0	9.11%
4	Bhubaneswari OCP	Odisha	MCL	Open	11,450.2	10,980.4	8.56%
5	Lakhanpur Mine	Odisha	MCL	Open	10,320.0	9,890.0	7.71%
6	Belpahar OCP	Odisha	MCL	Open	9,840.1	9,410.2	7.36%
7	Jayant Colliery	Madhya Pradesh	NCL	Open	9,410.8	9,020.1	7.03%
8	Dudhichua Project	Madhya Pradesh	NCL	Open	8,920.6	8,550.0	6.67%

3. Ministerial Action Directives & Implementation Timeline

POLICY DIRECTIVE 1: Fast-track First-Mile Rail sidings to enhance pithead evacuation.
POLICY DIRECTIVE 2: Standardize continuous miners and longwall automation across underground units.
POLICY DIRECTIVE 3: Maintain mandatory 18-day normative buffer stocks across all thermal utilities.
